

Covenant School of Nursing
Disciplinary Action Summary Assignment
Instructional Module 2

Student Name: Dianne Erika Hernandez Date: April 29, 2022 DAS Assignment #2

Name of the defendant: Candice Michelle Dark License number of the defendant: 305386

Date action was taken against the license: 11/15/2016

Type of action taken against the license: Voluntary Surrender

The event that led to Ms. Candice Dark voluntarily surrendering her license was she made an excuse letter from work for her husband who was not a patient at the clinic, and she ask her coworker to assist in the making of the letter, and her coworker signed a fictitious nurse's name to deceive the employer of her husband.

This action of Ms. Candice Dark was very preventable. She should have just suggested to her husband to call work if he can ask off and/or if her husband can ask one of his coworkers if they can cover this certain day of his shift so he can have a break from work or to be able to travel with family.

If I am the one who discovered this kind of event or activity, I am going to talk to her and tell her that it is not right to create a fictitious signature of someone. Ms. Candice Dark's coworker who made the fictitious signature should have known better not to do it because every signature is a legal matter. The universal competencies that were breached in this situation are professional role performance and human caring and relationships.
