

IM 2 Simulated Patient Clinical Video Grading Rubric

Student Name: ___Nick Nguyen_____ Video: _1_ Date: __05/13/2022_____

There are three (3) ways to receive credit for the video:

1. Perform the scenario with all critical elements in each area of the grading tool
2. Verbalize a breach or mistake in real time and provide the nursing intervention to correct the breach or mistake then proceed with the video
3. When reviewing the video, honestly evaluate the nurse. Recognize all (if any) breaches or mistakes, record them as "unmet" and provide a nursing intervention to correct the breach or mistake

| Universal Competency | Critical Elements | M | U |
|---------------------------------|--|---|---|
| Safety (physical and emotional) | Introduce self | M | |
| | Identify patient (2 patient identifiers) | M | |
| | AIDET | | U |
| | Allergies | M | |
| | 4 P's | M | |
| | Fall Bundle | M | |
| | Medication Administration: Medication, dosage, route, reason, assessment of route site(s), medication delivery equipment (IV pump, etc.) | | |
| Critical Thinking | Assessment: See NII for critical elements pertaining to selected assessment(s) | M | |
| | Procedure Assess, Plan, Implement, Evaluate (APIE) (Selection of appropriate equipment, time management, organization, etc.) | M | |
| Standard Precaution | Asepsis: | | |
| | Hand hygiene | M | |
| | Don and change gloves (as indicated) | M | |
| | Clean equipment (stethoscope, pulse ox, bedside table, med tray, etc.) | M | |
| | Sterile procedure | | U |
| | Medication preparation | M | |
| Documentation | Medication delivery | M | |
| | Teach Patient: | | |
| | Medication | M | |
| | Procedure | M | |
| | Scan patient | M | |
| | Scan each medication & acknowledge/accept | | U |
| | Document assessment findings | M | |
| Document procedure | M | | |
| Human Caring and Relationship | Respect, active engagement, authenticity, empathy, etc. | M | |
| Professional Role Performance | Appearance, preparation, behaviors, resource management, etc. | M | |

Comments:

For AIDET, I did not tell the patient how long the procedure is going to take and next time I will tell the patient the duration of the procedure.

For the sterile procedure I unmet because when putting on the sterile glove, my left hand cross over the left glove and I think that is contamination. Next time, I would get a new pair of gloves and while putting on the glove, I would stand over to the side of the first glove. And for removing the dressing change, I touch the patient gown and that cause contamination. Next time I would get a new pair of gloves and start all over and I would prepare the site before donning sterile glove.

For medication administration, I did not assess the injection sight and next time, I would assess the injection site for skin integrity, bruises, before I administer the injection.

For medication acknowledge, I did not ask if the patient have any question to the medication. Next time I would ask if the patient have any question to the medication.
