

IM 2 Simulated Patient Clinical Video Grading Rubric

Student Name: Jamie Dominguez

Video: 1

Date: 5/12/22

There are three (3) ways to receive credit for the video:

1. Perform the scenario with all critical elements in each area of the grading tool
2. Verbalize a breach or mistake in real time and provide the nursing intervention to correct the breach or mistake then proceed with the video
3. When reviewing the video, honestly evaluate the nurse. Recognize all (if any) breaches or mistakes, record them as “unmet” and provide a nursing intervention to correct the breach or mistake

Universal Competency	Critical Elements	M	U
Safety (physical and emotional)	Introduce self	√	
	Identify patient (2 patient identifiers)	√	
	AIDET	√	
	Allergies	√	
	4 P's	√	
	Fall Bundle	√	
	Medication Administration: Medication, dosage, route, reason, assessment of route site(s), medication delivery equipment (IV pump, etc.)	√	
Critical Thinking	Assessment: See NII for critical elements pertaining to selected assessment(s)		√
	Procedure Assess, Plan, Implement, Evaluate (APIE) (Selection of appropriate equipment, time management, organization, etc.)	√	
Standard Precaution	Asepsis:		
	Hand hygiene	√	
	Don and change gloves (as indicated)		√
	Clean equipment (stethoscope, pulse ox, bedside table, med tray, etc.)	√	
	Sterile procedure		√
	Medication preparation		√
Documentation	Medication delivery	√	
	Teach Patient:		
	Medication	√	
	Procedure	√	
	Scan patient	√	
	Scan each medication & acknowledge/accept	√	
	Document assessment findings		√
Document procedure		√	
Human Caring and Relationship	Respect, active engagement, authenticity, empathy, etc.	√	
Professional Role Performance	Appearance, preparation, behaviors, resource management, etc.	√	

Comments:

Upon preparing the morphine vial, I didn't properly charge the vial. The corrective action would be to insert the air into the vial then invert the vial to withdraw the morphine. I also did not state that it was a SDV and that I would not have any wastage. The corrective action would be to state that I would not need a witness because I withdrew the entire contents of the vial. Upon administration of the morphine, I did not count respirations but did state that I that I would have in my video. Upon assessment I did not don gloves to assess my patient. The corrective action would be to don clean gloves. During the CVAD dressing change when I put my 1st sterile gloves I contaminated because the paper folded back on the glove. The corrective action would have been to put on a new pair of sterile gloves. Upon donning my 2nd pair of gloves I may have contaminated. The corrective action would be to put on another pair of gloves. I did not state that I would document my assessment and document procedure. The corrective

action would be to state that I would leave to document assessment and procedure at the nurses station.
