

Covenant School of Nursing  
Disciplinary Action Summary Assignment  
Instructional Module 2

Student Name: Marin Duriex

Date: 5/27/2022

DAS Assignment # \_\_\_\_4\_\_\_\_ (1-4)

Name of the defendant: Marilyn Nunn Juarez

License number of the defendant: 76617

Date action was taken against the license: December 17, 2018

Type of action taken against the license: REVOKED

*Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

Juarez was under the influence of drugs or alcohol while working and taking care of patients. This was substance abuse while on the job.

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred. Consider which universal competencies were violated.*

*Her license was revoked and could have been protected easily if she would have not been under the influence when taking care of patients. In my opinion, there is a time and place for that, but it is not at work, especially if you are a nurse. The universal competencies that were broken are Safety, because she was not keeping the patient safe. She also broke the universal competency of human caring because of her lack of respect for the patient while being under the influence. Critical thinking is another competency that she broke because she did not make good decisions while under the influence. The professional role was broken because her appearance and interaction with peers was irresponsible.*

*Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

*As the prudent nurse, I would make sure that the nurse that was violating this law would go home and sober up before coming back to work. I would make sure she would do this before harming herself or the patients, informing the charge nurse to find a replacement. This is unacceptable behavior and should be treated as such.*
