

IM 2 Simulated Patient Clinical Video Grading Rubric

Student Name: ____Nick Nguyen_____ Video: _2_ Date: _05/27/2022_____

There are three (3) ways to receive credit for the video:

1. Perform the scenario with all critical elements in each area of the grading tool
2. Verbalize a breach or mistake in real time and provide the nursing intervention to correct the breach or mistake then proceed with the video
3. When reviewing the video, honestly evaluate the nurse. Recognize all (if any) breaches or mistakes, record them as “unmet” and provide a nursing intervention to correct the breach or mistake

Universal Competency	Critical Elements	M	U
Safety (physical and emotional)	Introduce self	M	
	Identify patient (2 patient identifiers)	M	
	AIDET	M	
	Allergies	M	
	4 P's	M	
	Fall Bundle	M	
	Medication Administration: Medication, dosage, route, reason, assessment of route site(s), medication delivery equipment (IV pump, etc.)	M	
Critical Thinking	Assessment: See NII for critical elements pertaining to selected assessment(s)	M	
	Procedure Assess, Plan, Implement, Evaluate (APIE) (Selection of appropriate equipment, time management, organization, etc.)	M	
Standard Precaution	Asepsis:		
	Hand hygiene	M	
	Don and change gloves (as indicated)	M	
	Clean equipment (stethoscope, pulse ox, bedside table, med tray, etc.)	M	
	Sterile procedure		U
	Medication preparation	M	
Documentation	Medication delivery	M	
	Teach Patient:		
	Medication	M	
	Procedure	M	
	Scan patient	M	
	Scan each medication & acknowledge/accept		U
	Document assessment findings		U
Document procedure		U	
Human Caring and Relationship	Respect, active engagement, authenticity, empathy, etc.	M	
Professional Role Performance	Appearance, preparation, behaviors, resource management, etc.	M	

Comments:

For the sterile procedure, I put unmet because on the first pair of sterile gloves, when I pick up the second glove, the glove falls back and forth and that contaminate the glove. Next time I will call my co-worker/ friends to bring me a new pair to put on and throw out the contaminated glove.

I put unmet for scan medication because I did not scan the medication before administering it to the patient, but I did catch my mistake and scan the medication after I administer it. Next time I will scan the medication before administer it.

I put unmet for both document assessment finding and procedure because I did not say I will document the procedure and assessment findings back at the nurse's station. Next time I will verbalize that I will document the procedure and assessment finding, and in real life I would document it at the nurse's station.
