I chose nursing as a career because I saw it as an opportunity to give back to the community and as a door to many opportunities. Being a nurse meant becoming able to take care of people who may not have anyone care enough about them to be present and when time comes, I will also be able to know and understand how I can properly look after my grandparents and parents as they did for me. Additionally, a career in nursing will open up a variety of opportunities that will continuously teach me throughout life.
