

Covenant School of Nursing
Disciplinary Action Summary Assignment
Instructional Module 2

Student Name: **Addy Perez**

Date: 09/01/2022

DAS Assignment: #1 (1-4)

Name of the defendant: Rodolfo T. Perez

License number of the defendant: 601804

Date action was taken against the license: 03/03/2014

Type of action taken against the license: Voluntary Surrender

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g., drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

Mr. Perez did not make sure he had done all continuing education requirements to keep license current and up to date for the years 2000 through 2002

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient if harm occurred. Consider which universal competencies were violated.

Part of a nurses responsibility is to keep up with the most current skills and refresher courses. This helps maintain their ability to provide the best and safest care for patients. I think that critical thinking and professional role performance were violated.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

I would offer to help a fellow nurse look and find CEUs in order to help keep their license current.
