

Student Name: Samantha Ramos

Date: 9/10/22

Instructional Module 6
Obstetrics Community Clinical Experience

Community Site: STD CLINIC

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I observe the nurse providing education and treatment for patients. I was able to draw labs, administer IM injection and help with patients.

2. What was the best/most interesting part of the experience?

I was able to learn how to educate about STD and how to prevent.

3. Is a community nursing position something that you would consider working in? Why or why not?

Yes, I enjoyed knowing these nurse get to go out in the community to help those patients and educate.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, being able to provide check ups and treatment at low cost and help prevent another infection.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

I observe the nurse teach patient how to properly take medication, how to practice safe sex and getting checked regularly. Yes, I believe the teaching were adequate for the community / targeted audience. because they were able to give needed medication at low cost.
