

## School Nurse Experience Reflection Questions

1. How has your view of the student population changed?

Dealing with the students gave me a new opportunity to take care of kids who are not so sick, and it was really fun.

2. How has your view of the school nurse role changed?

The school nurse does a lot more than I expected, so I respect them even more now.

3. What surprised you about the school nurse experience?

I was surprised about how much the nurse does and how many students come in every day.

4. What did you observe during your time there?

I gave several medications, took a lot of temperatures, and did a lot of health screenings.

5. How was your experience different from what you expected?

It was more peaceful than expected.

6. What are some of the needs/issues related to the health of the school age children that you may not have been aware of?

There are a lot of different reasons a student can end up in the nurses office that are not just medication related.

7. Please list two developmental stages related to the population that you observed.

Initiative vs. guilt

Preoperational period.
