

Medication Presentation Grading Rubric

Medication information must be conveyed via commercial, skit, or poster presentation. The presentation must have a nursing focus. A handout with information must be provided to each faculty member. (Please do not spend a lot of money printing high quality pamphlets. Black and white is fine. The content is what matters most.)

Topic:

Student Members of Group:

Time begin:

Time end:

Explanation of actions of drug, drug classifications, primary drug indications, routes of administration	(10)	_____
