Type of action taken against the license: revoked

*Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc. **Ms. Dillard was convicted of Aggravated Assault With a Deadly Weapon and a Second Degree Felony offense committed on January 31, 2018***

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred. Consider which universal competencies were violated. **Ms. Dillard didn't bring any harm to a potential patient, but she did commit a crime. I chose this one because as students we're thinking of the assignments on a medication error level, but what we do outside the hospital affects us as well. The universal competencies Ms. Dillard violated were Professional Role and Performance due to the fact she's in legal trouble.***

*Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

the As prudent Nurse I would have to report her to the authorities,  
2<sup>nd</sup> degree felonies with deadly weapons are illegal.
