

Covenant School of Nursing
Instructional Module 5 Learning Guide
Topic: Nursing in the Community

Learning Goals/Outcomes
Upon completion of this lesson, you will be able to: • Explain the roles and functions of a public health nurse and a community health nurse. • Compare and contrast public health nursing and community health nursing. • Examine specialty populations in the community including Poverty. • Discuss ACEs and their potential effect on behavior, physical and mental health. • Identify potential implicit and/or conscious biases associated with patient characteristics. • Apply evidence-based strategies for personal and professional development. • Discuss diversity, inclusion, and equity in healthcare.
Pre-Class Preparation
Recommended: Hockenberry, M. J., Wilson, D. & Rodgers, C.C (2022). <i>Wong's essentials of pediatric nursing</i> (11th ed.). St. Louis, MO: Mosby/Elsevier. • Box 1.1 Health and Health Care Priorities for American Children, pg. 2. • Box 1.2 Healthy People 2030, pg. 2. • Therapeutic Relationship, pgs. 8-10. • Community, pg. 29. • Poverty, pg. 31.
Learning Activities
Classroom Activities: • Watching brief video clips on the effects of poverty in children, about various resources available to parents in the community setting, and about the impact of ACEs on behavior and health. • Participating in an online Poverty Simulation exercise. Laboratory/Clinical Activities: • Selects available resources that are appropriate for the patient/family situation/scenario in Community Wellness Initiative (CWI). Online/Out of Class Activities: • Poverty & ACEs Online Activities – With this content in Lessons.
Evaluation Methods
• Unit Exam • HESI Specialty Exam: Pediatric Nursing
