

### **Why I want to be a nurse**

I want to be a nurse because I feel that this is my place to be. I want to be able to help the hurt people and the sick people. I want to make a difference in someone's life by helping them in any and every way possible. Nursing has always been a dream and goal of mine since my life experience with my dad when I was younger. I looked up to the nurses and doctors and that helped my father and they inspired me to want to help people just like they did my father. Now that I am here and have my chance to become a nurse I will give all my dedication and time to become the best nurse that I can be so I can help the people who need it. I want to be someone's hero and advocate. That is why I want to be a nurse.
