

Why I want to be a nurse

I want to be a nurse because I have a heart big enough to help those in need, to help others overcome some of their biggest fights life throws at them, and to learn. To learn everyday, about new patients, new hospital environments, other nurses and doctors, diagnosis of patients and most importantly how to help them in the end. Nursing is such a rewarding career, to go home everyday knowing you did your good in the world . It is your profession, something you get to do and experience everyday. You get a sense of satisfaction of doing your job and knowing your tenure in school was well worth getting to help and understand others as well as helping others understand themselves. Being a nurse is like a superhero in a movie, they truly are heroes and I aspire to be a hero.
