

School Nurse Experience Reflection Questions

1. How has your view of the student population changed?
 - a. No, it has not
2. How has your view of the school nurse role changed?
 - a. Yes it has
3. What surprised you about the school nurse experience?
 - a. While being a school nurse, you pretty much are a “parent-figure” to some of the kids that don’t get love at home, or where they reside at
4. What did you observe during your time there?
 - a. I observed my school nurse going to each classroom with her cart full of supplies, which I thought was cool, and giving each kid their scheduled med for the morning. I also observed her get called to various classrooms to on injuries of children, or to check their temperature
5. How was your experience different from what you expected?
 - a. I expected the school to just sit in her office all day, and give meds. I didn’t know that she actually went out and about to the classrooms to do it
6. What are some of the needs/issues related to the health of the school age children that you may not have been aware of?
 - a. LOVE! There were children that didn’t receive that type of affection at home, and she pretty much hugged and comforted them whenever they came to her office, especially the ones that she knew how they relationship with their guardians were.
7. Please list two developmental stages related to the population that you observed.
 - a. I observed autonomy vs shame/doubt
 - b. I also seen concrete operational
