

Covenant School of Nursing  
Disciplinary Action Summary Assignment  
Instructional Module 2

Student Name: Isaac Ariza

Date: 4/14/23

DAS Assignment # \_\_\_4\_\_\_ (1-4)

Name of the defendant: Misty J Pullen

License number of the defendant: 795480

Date action was taken against the license: 7/16/20

Type of action taken against the license: Revoked

*Use the space below to describe the events which led to the action(s) taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

Her first charge was for documenting the administration of fentanyl before she even went to pull the medication. The second charge stated she did not properly document a pain assessment or reassessment on a patient. The third charge was for her pulling dilaudid without a provider's order. Also, the provider stated that she had never asked Misty to give that medication. The fourth charge was for improper wastage of a narcotic. The fifth charge was for the misappropriation of 1 injection of dilaudid 0.5mg.

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.*

I think she should have thought about the basics of med administration. She improperly documented the medications that she was giving, and on top of that she withdrew medicine without a provider's order.

*Identify which universal competencies were violated and explain how.*

She violated the 7 rights of med admin by not properly documenting. She also violated critical thinking by withdrawing medicine without a providers orders.

*Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

I would have gave a little refresher course on the 7 rights of medication administration.
