*Use the space below to describe the events which led to the action(s) taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

**The Nurse was issued a Voluntary Surrender order because they were charged with multiple counts of Identity Theft. On top of the Identity Theft, they were also charged with Grand Theft which means they stole something worth \$1000-\$5000, dependent on the state they live in.**

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.*

**The Nurse was trusted with valuable information that can easily ruin people's lives, I was a victim of Identity Theft over 4 years ago and I'm yet to correct everything they ruined. The only thing that could've prevented any action taken against the nurse would be to not get involved in crime in the first place.**

*Identify which universal competencies were violated and explain how.*

**Human Caring: It's clear that the nurse didn't have any concern over how her actions would affect her patients.**

**Safety and Security: The Nurse didn't provide privacy, show trust, or respect the patient's confidentiality and personal information.**

*Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

**If I were to catch a co-worker stealing identities, I wouldn't hesitate at all to report them. The sooner they're stopped the better for everyone involved.**
