

## HESI Adaptive Quizzing IM 5

HESI Adaptive Quizzes will be worth 7.5% of your final grade.

Take attempt # 1 in the unit quiz. If you do not get 75%, take attempt #2, and so on in that unit quiz. If you do not get 75% in one of the 3 attempts, you will receive a 0 for that unit quiz. The highest score is taken from each attempt (or a zero if you did not make higher than a 75) and all 4 best scores are averaged to make 7.5% of your instructional module grade.

Students are ENCOURAGED to USE RESOURCES to complete the unit quizzes. If a student meets the 75% or greater, they are encouraged, but not required, to complete the remaining attempts for the unit adaptive quizzes.
