

MODULE 2: CLINICAL PAPERWORK

Early in the day, talk to your nurse & together pick one patient for you to fill out clinical paperwork on. Get your nurse to help you look up the information needed. You will have 1 patient per clinical week.

You will be reporting on your patient during post-clinical conference. You need to be prepared to do. BRING BLANK COPIES THIS PAPERWORK PRINTED OFF WITH YOU TO CLINICAL.

DAILY PHYSICAL ASSESSMENT (CHECKBOXES BY SYSTEM)

- Complete on 1 patient per clinical week
- Report to group during post-clinical

DAILY ASSESSMENT NARRATIVE

- Complete on 1 patient per clinical week
- Report to group during post-clinical
- GENERAL INFORMATION: age, sex, diagnoses & onset, chief complaint

MEDICATION WORK SHEET

- Pick 3 meds for your patient to write up
 - Not on our previously filled out med sheet
 - Most pertinent to your patient's diagnoses (NOT JUST WHAT THE BOOK SAYS)
 - THERAPEUTIC REASON: Note WHY YOUR PATIENT is taking it
 - APPROPRIATE NURSING ASSESSMENT, TEACHING, & INTERVENTIONS: Note any labs, vital signs, monitoring associated with it
- May use single med sheet as a reference to help guide you

OTHER FORMS / CRITICAL THINKING SHEETS

- Use these forms to help guide you in what to look for, think about, etc.
- You will be filling them out and submitting in future modules
