

## Why Nursing?

I chose nursing because, I have always enjoyed taking care of others. I realized in high school that nursing was for me when I got sick and had many appointments. It made me realize that nurses play a big role in your doctor visits. When I had nurses who truly cared and took care of me, it made me want to give people the same kind of care. Not all nurses care but it has made me want to make a difference in the education.
