Disciplinary Action Summary Assignment

Instructional Module 2

Student Name: Jessica Campos
DAS Assignment # 3

Date:9/7/2023

Name of the defendant: MICAELA ANN ENGLISH-BONNEY §

License number of the defendant: 703851

Date action was taken against the license: March 30, 2018,

Type of action taken against the license: LIMITED LICENSE
WITH STIPULATIONS

Use the space below to describe the events which led to the action(s) taken against the license. If multiple charges were in play, be sure and cite them, e.g., drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

The action in which was taken against the RN license held by Micaela Ann English-Bonney on March 30, 2018, while employed at Angels of Care Pediatric Home Health, in Sherman Texas. She chose to verbally and physically abuse her patient by telling her "She would smack her if she didn't stop touching her." Then doing so took it upon herself striking and pushing the patient.

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient if harm occurred.

Measures I believe that should have been taken to prevent such actions the nurse should had called for help when becoming frustrated or upset with the patient behavior. As the advocate for the patient, she violated so many rights for her patient she needed to let her charge nurse know the situation she was facing before taking action into her own hands.

Identify which universal competencies were violated and explain how?

Universal competencies in which were violated in this care were the professional role along with human caring, were violated because the RN made decision to not follow the guideline in procedures. The RN also failed to critically think about the making the decision she made by causing psychological, physical, and emotional harm to her patient. By doing so she deserved the consequences she chose to make by violation of her patient right.

Use the space below to describe what action you think a prudent nurse would take as the first person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action?

As a prudent nurse who was the first person to come across the violation of these universal competencies it my job maintaining patient safety and uphold the professional standards of the healthcare field also reporting it my manger as soon as I was aware of the situation.
