Instructional Module 6
Obstetrics Community Clinical Experience

Community Site: Grace Clinic - Dr. Nall's Office

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I observed a few wellness exams, pap smears and a vaginal colposcopy. Not to mention ~~vag.~~ cervical biopsies

2. What was the best/most interesting part of the experience? Two interesting things that

I got to see was the vaginal colposcopy. It was interesting how the OB-GYN was able to see the abnormalities in the cervix with the use of the colposcopy. The 2nd one was how the ^{cervical} biopsies looked uncomfortable both for me and pt. I couldn't help but squeal.

3. Is a community nursing position something that you would consider working in? Why or why not?

I honestly loved Grace Clinic. The staff were very friendly and welcomed me with open arms. The RN who was my preceptor was also very knowledgeable. Dr. Nall ^{is so much} was amazing; he taught me

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Dr. Nall's office population ^{dealt with} was more of women ~~comes~~ from sexually active age to a 91 yo female pt who came in for a vaginal prolapse.

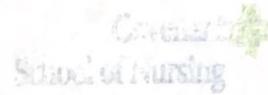

Dr. He did a good job at teaching the clients on the ^{pre-op and actual} procedure ^{expected} least invasive procedure.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

As mentioned in question 4, Dr. Nall did a good job doing pt teaching to all his clients. He told more of the benefits and risks involved but his biggest thing was going for the least invasive procedure before opting for surgery. Reason I say this is because some Drs

Adopted: October 2016

simply don't care about pts to that extent. He has a lot of compassion for his clients and showed great expertise in his line of work. (Grateful for this experience!)
