

Covenant School of Nursing

Disciplinary Action Summary Assignment

Instructional Module 2

Student Name: Jessica Campos

Date: 9/14/2023

DAS Assignment # 4

Name of the defendant: CHLOE BREE TILLMAN§

License number of the defendant: 764461

Date action was taken against the license: August 6, 2008, through August 9, 2018

Type of action taken against the license: WARNING WITH STIPULATIONS, KNOWLEDGE, SKILLS, TRAINING, ASSESSMENT AND RESEARCH (KSTAR) PROGRAM

*Use the space below to describe the events which led to the action(s) taken against the license. If multiple charges were in play, be sure and cite them, e.g., drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

The action in which was taken against the RN license held by Chloe Bree Tillman was employed at Anderson Cancer Center, Houston, Texas, and had been in that position for nine (9) years and seven (7) months. Around August 6, 2013 through August 9, 2018, was doing a assignment at Camp A.O.K., the nurse gave the medication Atenolol 2.5 twice a day which was over the amount the physician had in the orders.

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient if harm occurred.*

Measures I believe that should have been taken to prevent such actions the nurse should had followed the physician order. As the advocate for the patient, she violated her patients right which could had seriously injured the patient even killed her. By her

asking the mother to the patient what she take at home had nothing to do with the care she receives at Camp A.O.K.

*Identify which universal competencies were violated and explain how?*

Universal competencies in which were violated in this care were the safety and security which are physical and emotional, also professional role along with human caring, were violated because the RN made decision to not follow the guideline in protocol. The RN also failed to critically think about the making the decision she made by causing physical, and emotional harm to her patient. By doing so she needed to face the consequences that she chose to make by violation of her patient care.

*Use the space below to describe what action you think a prudent nurse would take as the first person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action?*

As a prudent nurse who was the first person to come across the violation of these universal competencies it my job and career to maintaining patient safety and uphold the qualification and standards of the healthcare field also reporting it my manger as soon as I was aware of these circumstances.
