Instructional Module 6
Obstetrics Community Clinical Experience

Community Site: Zavala

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I saw and helped Dr. Zavala with GBS swabbing, cervical exams, blood pressure monitoring, sonography, fetal doppler heart monitoring, ~~and~~ watched a membrane stripping, and fundal

2. What was the best/most interesting part of the experience?

I saw Dr. Zavala strip a patient's membranes in attempt to induce labor. ^{height} measurement

3. Is a community nursing position something that you would consider working in? Why or why not?

Potentially. I feel there is a lot of patient teaching and education in an outpatient nursing setting. I enjoyed my day with Dr. Zavala and learned and got to see many of the procedures we discussed in lecture.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes. All staff members at the office were very informative and helpful to all patients.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes - Dr. Zavala did a great job with patient education with each patient and took as long as needed with each patient.

She educated about GBS testing, signs of true labor, labor plans and blood pressure monitoring.
