Instructional Module 6  
Obstetrics Community Clinical Experience

Community Site: Dr. Blann's Office

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I got to observe a couple ultrasounds done by Dr. Blann. ~~I~~ I also used the fetal doppler to be able to listen to the fetal heart rate

2. What was the best/most interesting part of the experience?

It was interesting to see the many phases of pregnancy. Not one patient is the same as another so their reactions + feelings were interesting to observe.

3. Is a community nursing position something that you would consider working in? Why or why not?

I'm not really sure. Today's experience was nice + a great form of learning. I feel like it depends on the specific role.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

I believe the community needs were met. The staff was respectful + helped answer questions + ease the pts. minds.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Patient teaching involved birth control, explanation of procedures, the path that is pregnancy + other points. The staff were all knowledgeable + answered any + all questions the best they could.
