## Instructional Module 6: Newborn Assessment

### Gestational Age Assessment

Participate in a gestational assessment; document your findings on the New Ballard Score Form.

What was the gestational age based on your assessment? 40 w

What was the gestational age based on the antepartum record? 40 w/d

Is there a difference? no

If so, what could be the reason for the difference? \_\_\_\_\_

AGA LGA SGA

#### **Gestational Age Interpretation:**

If your baby was LGA or SGA, describe the contributing factors and potential complications:
