### Evidence-Based Practice Poster Presentation

Group Member: Samantha Kendall

What did this member contribute to the presentation?

Sam played a very big role in the presentation; she researched the neurological affects of alcohol withdrawal. This topic took up a big part of our presentation and she did a very good job of explaining the effects of alcohol abuse and alcohol withdrawal on the brain. She was also a team player when planning the presentation and putting together the presentation board.

Please circle/rate the member on a scale 1 to 5 below:

1 Minimum    3 Average/Good    **5 Above** Average/Very Good

Group Member: Katy Needham

What did this member contribute to the presentation?

Katy also played a very big role in the presentation; she researched the affects on the GI system caused by alcohol abuse and alcohol withdrawal. Her part focused on the diet and the treatments for the damages done to the gi system. Katy did a very good job of explaining to the class the effects that alcohol withdrawal has on the gi system and what the effects of the gi system lead to and the ways other organ systems can be effected like the liver. She was a big team player during the development of the project and helping find good resources for alcohol withdrawal.

Please circle/rate the member on a scale 1 to 5 below:

**Overall**, how did your group perform together? (Please circle/rate below):

1 Poor    3 Average/Good    5 Above Average/Very Good

Additional Comments: I feel like as a group we worked together wonderfully and enjoyed working together as a group. We all were on the same page throughout the process and everyone pulled their own weight with the research and presentation. We also worked together to put the board for our presentation together and make the board flow with the way we wanted to present.
