Evidence-Based Practice Poster Presentation

Group Member: Triston Colquett

What did this member contribute to the presentation?

Triston did a great job at making sure that he got a lot of research about the liver and also decided on the topics for the project as well that we split among each of us. He spoke during the presentation and was always very responsive anytime that we needed anything. I appreciated having Triston in my group! :)

Please circle/rate the member on a scale 1 to 5 below:

Group Member: Katy Needham

What did this member contribute to the presentation?

Katy was a MVP of our project. She did so well at making sure that we were during our time limit and helping us physically put the board together. She had so many things to contribute to the project and had a lot of knowledge that she offered to us as well!! I really appreciated all of her participation that she gave overall.

Additional Comments: I feel very blessed to have gotten the group that I did. We all were very communicative and friendly to each other throughout the entire process. I never once worried about my project or if it would get done, I knew that they would get everything accomplished. I had such a great time during this process. We were the best group and I am so thankful that I got to spend this time in the module with them.
