

Why I Want to Be a Nursing

There are many varied reasons why I wanted to pursue nursing as a career. One reason I wanted nursing was because I enjoy caring for people and making people feel better when they are sick, just seeing them smile makes my day better. On the days I work I love seeing my patients, they are always so nice and even though they are sick they love to talk and get to know me just as much as I am getting to know them. The second reason is because the human body always fascinated me. When I was in middle school, I was so eager to learn about everything that had to do with the body.
