

## Why do I want to be a nurse?

There are many reasons why I want to be a nurse not just one. My mom is a nurse and growing I always saw how she cared for her patients, and I knew from a young age that's exactly what I wanted to do. My oldest sister is a nurse practitioner, and she is also someone who inspires me to be a nurse. I like to say that being a nurse runs in our family DNA. I hope one day I can be a great nurse like they are. One of the biggest reasons I want to be a nurse is so I can become a Sexual assault nurse examiner- SANE. I unfortunately have had my own experience with a SANE and she was everything I needed in that moment. She provided support and was incredibly kind. Although I wish I didn't have to have that experience it gave me a new perspective on what exactly I want to do. I hope one day I can be the voice of hope for someone in need and offer care and support to those who are going through the tough times in life.
