Instructional Module 6
Obstetrics Community Clinical Experience

Community Site: Dr. Blann

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe? Pregnancy well check visits - we checked FHR with the Doppler, I gave a Tdap vaccine, & I watched the nurse perform vaginal exams & do the GBS swabs. There were also two NST I got to see

2. What was the best/most interesting part of the experience?
It was fun getting to do the FHR with the doppler

3. Is a community nursing position something that you would consider working in? Why or why not?

I want to start at the hospital to gain the experience & knowledge first, but I could be interested later on in my career

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes - even though Dr. Blann was out, the nurse was able to answer all of the pt's questions. All of the patients seemed happy with the care & I heard great things about Dr. Blann

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Mandy taught them about the GBS test, preparing for labor (a lot of them were at the 37-40 wk mark), about the gestational diabetes, & overall prenatal care. I thought her teaching was good & thorough
