

## Covenant School of Nursing Reflective Practice

*Learning to be a reflective practitioner includes not only acquiring knowledge and skills, but also the ability to establish a link between theory and practice, providing a rationale for actions. Reflective practice is the link between theory and practice and a powerful means of using theory to inform practice thus promoting evidence based practice.” (Tsingos et al., 2014).*

Using the Reflective Practice template on page 2, document each step in the cycle. The suggestions in each of the boxes may be used for guidance but you are not required to answer every question. This Reflective Practice document will be reviewed by faculty and then you will post the final reflection in your LiveBinder folder.

<p><b>Step 1 Description</b> A description of the experience, with relevant details. <u>Remember to maintain patient confidentiality.</u> Don't make judgments yet or try to draw conclusions; simply describe the events and the key players. Set the scene! It might be useful to ask yourself the following questions</p> <ul style="list-style-type: none"> <li>• What happened?</li> <li>• When did it happen?</li> <li>• Where were you?</li> <li>• Who was involved?</li> <li>• What were you doing?</li> <li>• What role did you play?</li> <li>• What roles did others play?</li> <li>• What was the result?</li> </ul>	<p><b>Step 4 Analysis</b></p> <ul style="list-style-type: none"> <li>• What can you apply to this situation from your previous knowledge, studies or research?</li> <li>• What recent evidence is in the literature surrounding this situation, if any?</li> <li>• Which theories or bodies of knowledge are relevant to the situation – and in what ways?</li> <li>• What broader issues arise from this event?</li> <li>• What sense can you make of the situation?</li> <li>• What was really going on?</li> <li>• Were other people's experiences similar or different in important ways?</li> <li>• What is the impact of different perspectives eg. personal / patients / colleagues' perspectives?</li> </ul>
<p><b>Step 2 Feelings</b> Don't move on to analyzing these yet, simply describe them.</p> <ul style="list-style-type: none"> <li>• How were you feeling at the beginning?</li> <li>• What were you thinking at the time?</li> <li>• How did the event make you feel?</li> <li>• What did the words or actions of others make you think?</li> <li>• How did this make you feel?</li> <li>• How did you feel about the final outcome?</li> <li>• What is the most important emotion or feeling you have about the incident?</li> <li>• Why is this the most important feeling?</li> </ul>	<p><b>Step 5 Conclusion</b></p> <ul style="list-style-type: none"> <li>• How could you have made the situation better?</li> <li>• How could others have made the situation better?</li> <li>• What could you have done differently?</li> <li>• What have you learned from this event?</li> </ul>
<p><b>Step 3 Evaluation</b></p> <ul style="list-style-type: none"> <li>• What was good about the event?</li> <li>• What was bad?</li> <li>• What was easy?</li> <li>• What was difficult?</li> <li>• What went well?</li> <li>• What did you do well?</li> <li>• What did others do well?</li> <li>• Did you expect a different outcome? If so, why?</li> <li>• What went wrong, or not as expected? Why?</li> <li>• How did you contribute?</li> </ul>	<p><b>Step 6 Action Plan</b></p> <ul style="list-style-type: none"> <li>• What do you think overall about this situation?</li> <li>• What conclusions can you draw? How do you justify these?</li> <li>• With hindsight, would you do something differently next time and why?</li> <li>• How can you use the lessons learned from this event in future?</li> <li>• Can you apply these learnings to other events?</li> <li>• What has this taught you about professional practice? about yourself?</li> <li>• How will you use this experience to further improve your practice in the future?</li> </ul>

<b>Step 1 Description</b>  I spent the last 2 days at Oceans for clinicals. I shadowed nurses, nurse techs, performed assessments, attended group therapy, and treatment team.	<b>Step 4 Analysis</b>  I feel like overall I learned how to better feel empathy for different patients from different backgrounds. I also learned how to communicate with this population of patients and better connect with them.
<b>Step 2 Feelings</b>  I felt very anxious at first because I did not know what to expect, however once I was there the staff was very reassuring and welcoming. I enjoyed this clinical experience more than I was expecting myself to. I felt very empathetic and enjoyed getting to spend time with the patients.	<b>Step 5 Conclusion</b>  The only thing I feel as though could've made this situation "better" was seeing a wider range of patients and maybe even more manic patients. All of the patients we worked with were very calm and collective.
<b>Step 3 Evaluation</b>  Overall the experience was very good. The staff was very friendly and helpful. The patients were very cooperative and welcomed students. I enjoyed attending treatment team with the whole staff to hear and better understand the care plans for each patient.	<b>Step 6 Action Plan</b>  Overall I thoroughly enjoyed this clinical experience. In my opinion it was unlike any other clinical site I had visited in my nursing school career. I feel as though in the future I will be better prepared to communicate with this population.
