Date: 11/8/2023

Instructional Module 6
Obstetrics Community Clinical Experience

Community Site: Parkridge Pregnancy Center

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe? I observed rapid HIV test, abdominal ultrasound, & vaginal ultrasound. I observed the nurses and they are very nice. They know how to talk and communicate to their patients. I saw how patients warmed up after their consultations. It was an eye-opener that this site contributes to women's mental health.

2. What was the best/most interesting part of the experience?

The most interesting for me was doing the ultrasounds and vaginal exams because it is very personal & being a good listener & communicator contributed a lot to it. I learned hands-on skills & communication skills today. Being able to listen to my patients made me realize that people go through a lot and being kind matters.

3. Is a community nursing position something that you would consider working in? Why or why not? Yes, because everyone was so accommodating. I have witnessed that their

relationships with their patients were light. They all educate the patients properly.

I could feel compassion from them whenever they talk to their patients who are going through a lot.

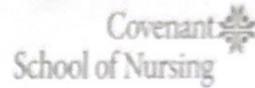

4. Do you feel like this community site met the needs of the population they serve? Why or why not? Yes, they are non-profit & yet they could provide all these screenings.

The nurses are very nice and very passionate with their job. Equipments and materials are donation based and it is awesome that women could get the consultation they need.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes, a lot from the nurses and volunteers. Most women that came in were given resources that they needed may it be from abortion, adoption or referral for contraception. Women of different ages came in and I feel that their needs were addressed properly & adequately.
