

**Covenant School of Nursing**  
**LVN-RN Course Learning Guide**  
**Topic: Medical-Surgical**

**Learning Goals/Outcomes**

Upon completion of this lesson, you will be able to:

- Apply the concepts of delegation, prioritization and leadership principles in the care of patients.
- Describe informed surgical consent and outline preop and post op care for the surgical patient.
- Identify the signs and symptoms of abnormal electrolytes and anticipate treatment options and monitor patient response.
- Discuss the signs, symptoms, and treatment of HIV & AIDS.
- Compare and contrast the care of the post-op hip patient, patient with osteoporosis, and patient requiring orthopedic traction.
- Plan and prioritize care for a patient diagnosed with Systemic Lupus Erythema or Rheumatoid Arthritis.
- Compare and contrast ulcerative colitis, Crohn's disease, Diverticulitis and Diverticulosis including pathophysiology, clinical manifestations, complications, and interprofessional and nursing management.
- Implement nursing care specific to symptom management of patients with cancer.
- Recognize and implement care strategies for patients at the end of life.
- Implement assessment and prevention strategies to maintain tissue integrity.
- Plan and prioritize care interventions for patients with Type 1 and Type 2 Diabetes Mellitus.
- Plan and prioritize care interventions for patients with acute/chronic imbalance of the thyroid and adrenal glands.
- Discuss the pathological mechanisms of urinary tract infections, renal calculi, benign prostatic hypertrophy, and renal failure.
- Implement nursing plans of care for individuals with genitourinary disorders.

**Pre-Class Preparation**

Required:

- Also see the HESI & Other Assignments Sheet
- Saunders Comprehensive Review for the NCLEX-RN Examination
  - Adrenal gland, Amputation, Cancer, Diabetes types 1&2, Fluid & electrolyte imbalances, Genitourinary, Hip fracture pre & post op care, HIV/AIDS, Informed consent, Integument, Malignant Hyperthermia, Orthopedic traction, Osteoarthritis, Osteoporosis, Patient controlled analgesia, Perioperative nursing, Renal, Rheumatoid arthritis, Systemic Lupus Erythematosus (SLE, Thyroid (hypo & hyper)

**Learning Activities**

Classroom / Activities:

- Lecture
- Discussion
- Case studies
- Collaborative learning

Laboratory/Clinical:

Online:

- See **HESI & Other Assignments document in LMS**

**Evaluation Methods**

- Exam 1
- HESI Modules Completion
- Competency Performance Examination

<b>Texas DECs</b>	<b>QSEN Competencies</b>
