### **Evidence-Based Practice Poster Presentation**

Group Member: **Jarrett**

What did this member contribute to the presentation?

Jarrett found 2 of the required sources for our project. He researched mostly on the post of side of our presentation and talked about the prosthetic and socket design. He also helped a lot putting together the poster board, we went together to get the supplies and contributed his ideas on what could make the poster board stand out. He did great and was very easy to communicate with and willing to make time for our project.

Group Member: **Makayla**

What did this member contribute to the presentation?

Makayla printed everything for our project. We emailed her our research and she printed everything. She also helped a lot with putting the project together, it was very time consuming and she stayed to work on it with us. She also had the 3<sup>rd</sup> peer reviewed source that we needed and she researched different types of prosthetics and the materials. She also helped with making our poster more colorful and creative.

Group Member: **Kylie**

What did this member contribute to the presentation?

Kylie didn't come to any meetings we had discussing our project. We gave her the topic of AKA vs BKA but it wasn't much information. She didn't try to put time aside to work on the project with us. Although we received her research, she didn't help at all with putting the poster together or communicate well with any of the group members. She said it was due to work but other members also work and still found at least some time to work on it. As a group it put us behind.

**Overall**, how did your group perform together? (Please circle/rate below):

1 Poor    3 Average/Good    **5 Above Average/Very Good**

Additional Comments: I think 3 of the 4 members worked well together and we put in the work to make the project look good and actually learned a lot together. We worked efficiently and got it done well. \_\_\_\_\_
