Priscilla contributed with leading the group meetings, having information ready when it was time to put the project together. She also helped with more information at the last minute that was not assigned to her when the other group member withdrew from the module.

Group Member: ***Brianna Mojica***

What did this member contribute to the presentation?

It felt as she didn't really care about the project when it was first assigned to the group, she wouldn't contribute time when we had group discussion or meetings. Even though she withdrew a couple of days before presentation day, we did not receive any information to help with the part that was assigned to her leaving us in a struggle to find more information that was needed.
