Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED?
respiratory. Sore throat, Coughing (productive/non-productive), Strep throat
2. The majority of the patients who came in to the PED were from which age group? Was this what you expected?
Pre-School to school age kids came into the ED
3. Was your overall experience different than what you expected? Please give examples.
I was expecting it to be more crazier stuff for the ED. But it was more calmer and dealt with a lot of respiratory stuff that wasn't too urgent.
4. How did growth and development come into play when caring for patients (both in triage and in a lot of treatment rooms)?
5. What types of procedures did you observe or assist with?
6. What community acquired diseases are trending currently?
7. What community mental health trends are being seen in the pediatric population?
8. What patient population is the most vulnerable?
9. What is the process for debriefing after a traumatic event?
10. If someone donated \$100 million to the PED, what would you change?
updated the facility
11. What is the process for triaging patients in the PED?
check in, call them back get VS & quick assessment & mark acuity, bring them back and put them in a room.
12. What role does the Child Life Specialist play in the PED?
