

Dova Keeling

Why I want to be a nurse.

The reason I want to be a nurse is because when I was young my dad had heart problems. He had several heart attacks and had a pacemaker put in and taken out before he had open heart surgery at the age of 30. The paramedics were always at our house. I always wished I could do more to help besides taking care of my siblings. Becoming a nurse allows me to be able to do more. I love helping others and making a difference in people's lives.
