

ECG Practice

Identify this rhythm _psvt _____

Calculate heart rate __200bpm _____

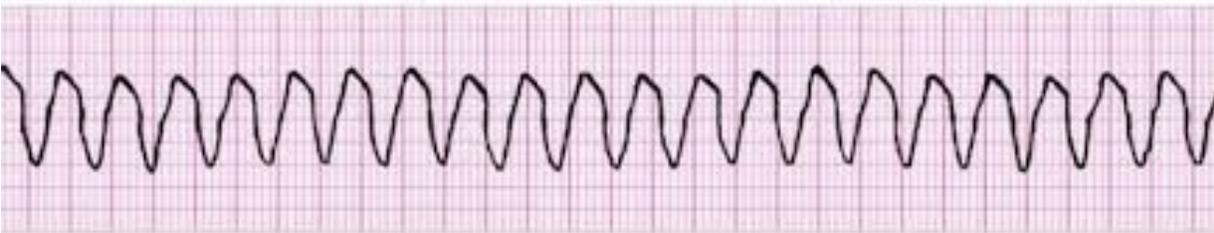

What nursing actions will you take have pt. bear down/cough and give adenosin _____

Identify this rhythm __ventricular tachycardia _____

Calculate heart rate ____200bpm _____

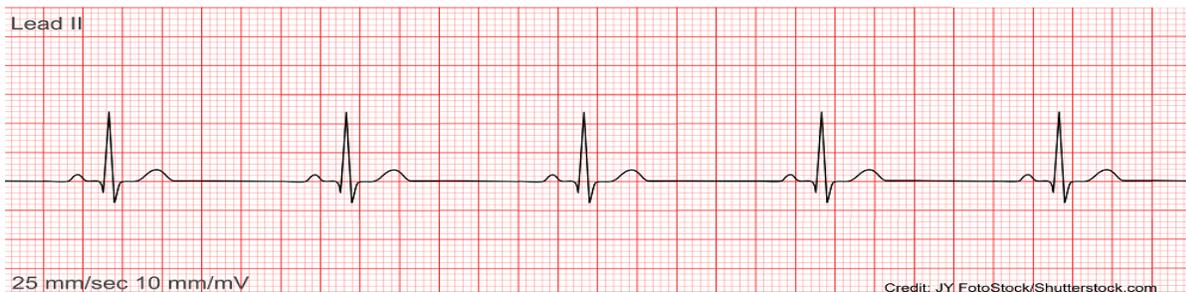

What nursing actions will you take _check pts. pulse _____

Identify this rhythm __sinus bradycardia _____

Calculate heart rate __50 _____

What nursing actions will you take _ask medications, _____

ECG Practice

Identify this rhythm __atrial fib _____

Calculate heart rate __130_____

What nursing actions will you take __get essential things in room, give amiodarone_____

Identify this rhythm __atrial flutter _____

Calculate heart rate __100bpm_____

What nursing actions will you take __give ca channel blocker, blood thinner, ibutilide_____

Identify this rhythm _ventricular fibrillation _____

Calculate heart rate _____

What nursing actions will you take _check pulse, immediate CPR, defibrillation_____

ECG Practice

Identify this rhythm asystole

Calculate the heart rate _____

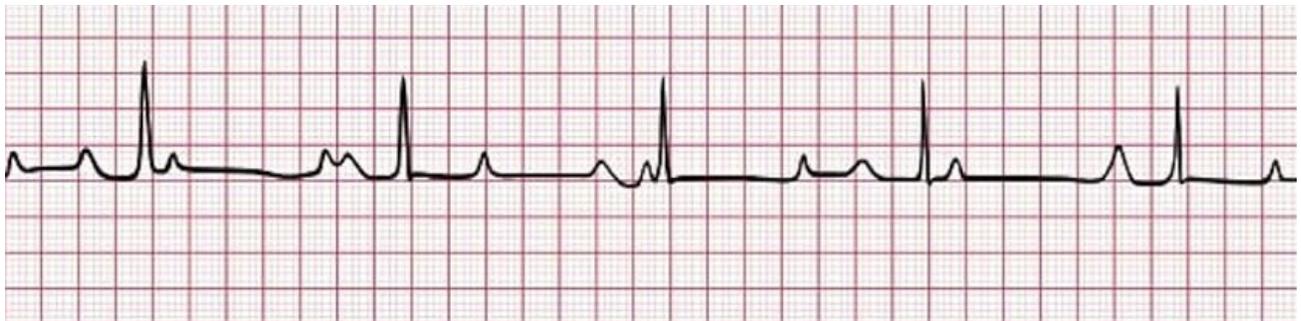

What nursing actions will you take compressions

Identify this rhythm third degree block

Calculate the heart rate _____

What nursing actions will you take inform pt. pacemaker is needed

Identify this rhythm artifact

Calculate the heart rate _____

What nursing actions will you take stop movement/distracton
