## Disciplinary Action Summary Assignment

### Instructional Module 2

Student Name: Jayci Weldon Date: 01/19

DAS Assignment # 1

Name of the defendant: HEATHER MARIE  
CHANDLER

License number of the defendant: 888287

Date action was taken against the license:  
September 19, 2022

Type of action taken against the license:  
Remedial Education

? *Use the space below to describe the events which led to the action(s) taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

? *Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.*

The nurse should have not initiated the conversation or given out her phone number in the first place. With the patient being underage she should have not started the outside conversation due to the patient not understanding that her license was on the line.

? *Identify ALL universal competencies were violated and explain how.*

Safely and security since there was not a professional interaction emotionally. Professional role with the interaction of the patient not being within boundaries.

? *Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described. In other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

First, let the charge nurse what is going on to prevent this happening to another patient. Then go to the board of nursing with what is going on with the situation and explain all the evidence I have to prove that boundaries are crossed by the nurse.

#### Question 1:

About October 2, 2020, nurse Heather violated professional boundaries between herself and a patient. The nurse contacted the patient on three different occasions while she was off duty. The patient was admitted to a restrictive youth facility. The patient initiated all communication to the respondent. The respondent was likely to injure the patient, that goes beyond nursing boundaries that could have caused confusion to the patient due to the needs the patient needed to receive.
