

Clinical Reflection – Week 4

Reflect on your experiences during your **fourth week** of clinicals in IM1.

- Describe an experience where you were shadowing and observing an RN.
- Was there a patient interaction that stood out to you?
- How did that make you feel?
- Did anything surprise you?
- What do you feel went well?
- What do you feel could have gone better?

Patient Centered Care

- Describe the support system for at least one of the patients you encountered today. (This could include immediate family, friends, coworkers, etc.) How did having these individuals seem to affect the patient's perception of their illness or care?

Weekly Wrap Up

- In what way did you contribute to your learning this week?
- What is your overall reaction to this week of clinicals?

Reflections should be a minimum of 250 words and address each bullet point in the rubric. Feel free to add anything else that you want to share.

Email your clinical reflection to your advisor **no later than 2359 on the Monday of your fourth clinical at Covenant Medical Center.** Late submissions will count as an absence.

(If you are having any difficulties submitting this assignment, you must contact your instructor prior to 9:00 pm on the due date.)
