## Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED? *Viral illness, flu B, head lac*
2. The majority of the patients who came in to the PED were from which age group? Was this what you expected? *Hyperemesis  
School age. This is what I expected.*
3. Was your overall experience different than what you expected? Please give examples. *Not really I saw parents more panicked when they needed to*
4. How did growth and development come into play when caring for patients (both in triage and in treatment rooms)? *be calm,  
kids wanted to be close to parents  
when they had to be swabbed*
5. What types of procedures did you observe or assist with?
6. What community acquired diseases are trending currently?
7. What community mental health trends are being seen in the pediatric population?
8. What patient population is the most vulnerable?
9. What is the process for debriefing after a traumatic event?
10. If someone donated \$100 million to the PED, what would you change?
11. What is the process for triaging patients in the PED?
12. What role does the Child Life Specialist play in the PED?  
*There was no child life specialist.*

4.) Kids were able to point to the area of pain accurately.  
School age boys wanted to be held by mother instead of father.
