

## Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED?

*I was able to see patients with*

- *Kawasaki disease*
- *Stomach bug*
- *Asthma/Atopic eczema*
- *Syncope*

2. The majority of the patients who came into the PED were from which age group? Was this what you expected?

*3-10 years of age, I did expect this since it is the season of getting sick with flare-ups.*

3. Was your overall experience different than what you expected? Please give examples.

*It was different than what I expected, I was expecting at least one type of severe trauma, only being that it is the specialty that I want to go into. Being able to see sight in an intense environment and how the team works together if a situation were to occur.*

4. What community mental health trends are being seen in the pediatric population?

*“Suicide is being seen in the pediatric population with an increase in overdose on medications, with different types of other mental health disorders.”*

5. If someone donated \$100 million to the PED, what would you change?

*“Rebuild the PED with a more kid-friendly environment, better equipment, and more staffing if possible.”*
