

LMS Practice

When approached with the question “What made you want to be a nurse,” I always struggle with the quick response. I believe it took time and real-life experiences to lead me down this path to know without a doubt this is where I belong. I have been a dental assistant for 6 years and have come to love patient care and interaction. While dentistry has taught me so much, I have always felt the need to push myself further. Nursing provides opportunities to grow, learn and further provide for my young family. I am so excited to begin this journey and see where it leads me next.
