

Instructions for Simulation:

***Confidentiality-** You signed the Student Commitment to Conduct during non-graded and graded CPE at the beginning of Instructional Module 1. That commitment is expected in every Instructional Module. Remember to respect the confidentiality of your fellow learners and not share any information outside of the simulation session.

Please do not share any of the information emailed to you with anyone else, this could be considered an academic integrity issue.

STUDENTS ARE NOT ALLOWED TO SHARE SIMULATION INFORMATION or EVENTS WITH CLASSMATES OUTSIDE of THEIR SIMULATION GROUP.

You are required to come to sim prepared. In Pediatric Simulation Clinical lesson there is a patient preparation Worksheet that you must complete for your patient. Each student must complete their own paperwork and I will be checking for completion. If your paperwork is not complete you will be asked to leave and have an absence for the day. Please note you must come with paperwork complete on Tuesday as you will not know what scenario is being presented first.

Patient Info
Patient name: Aaron Jackson Medical record #: 1874426 Date of birth: April 8 Age: 9 months Sex: Male Admitting provider: John Whittingham, MD Chief complaint upon admission: Planned operative procedure. Primary diagnosis: Hirschsprung's disease Secondary diagnosis: Colostomy Weight: 16 lbs. 9 oz. Meds: <ol style="list-style-type: none">1. Cefotaxime 190 mg IVPB in 0.9%NS 25 mL Q6H2. Morphine Sulfate 0.75 mg IV Push Q4H PRN for Pain3. Ondansetron 0.75 mg IV Q4H PRN Nausea4. Acetaminophen 100 mg PO every 4 hours PRN for temperature higher than 101 F (38.3 C)5. Dextrose 5% in 0.25% Sodium Chloride with Potassium Chloride 20 mEq/1000 mL (D5 1/4NS with 20 mEq KCL/1000 mL)6. Acetaminophen with codeine (120 mg acetaminophen and 12 mg codeine component per 5 mL) 1.6 mL (3.75 mg codeine component/dose) PO every 4 hours PRN for pain.
