

ECG Practice

Identify this rhythm SVT

Calculate heart rate 200

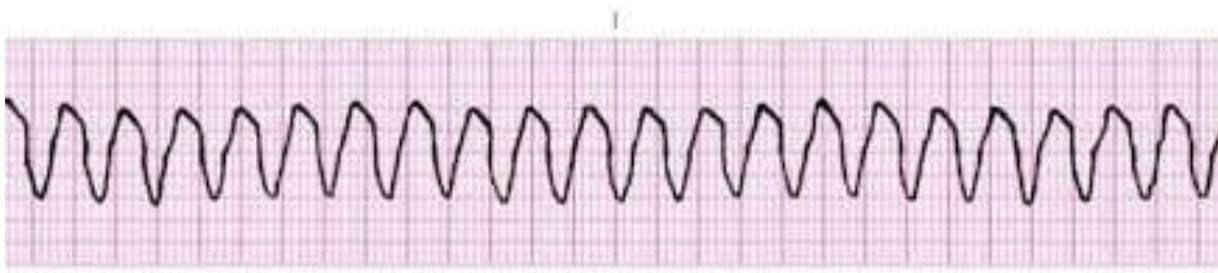

What nursing actions will you take adenosine (6mg then 12mg), vagal stim, beta blocker

Identify this rhythm VTach

Calculate heart rate 200

What nursing actions will you take CPR, shock, meds → epi/amiodarone

Identify this rhythm Sinus bradycardia

Calculate heart rate 50

What nursing actions will you take admin atropine (0.5mg), stop beta blockers + calcium channel blockers if pt takes

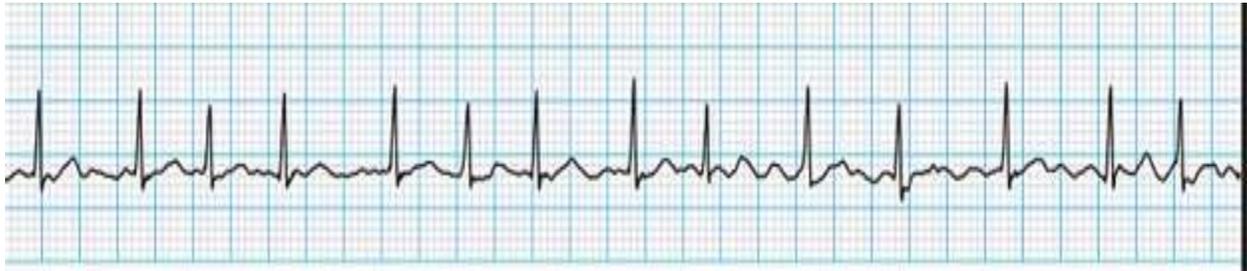

ECG Practice

Identify this rhythm A fib

Calculate heart rate 120

What nursing actions will you take amiodarone (300mg), anticoagulant, prepare for cardioversion / ablation

Identify this rhythm A flutter

Calculate heart rate 100

What nursing actions will you take admin warfarin, prepare pt for ablation / cardioversion

Identify this rhythm V fib

Calculate heart rate NA

What nursing actions will you take CPR, shock, code meds

ECG Practice

Identify this rhythm asystole

Calculate the heart rate 0

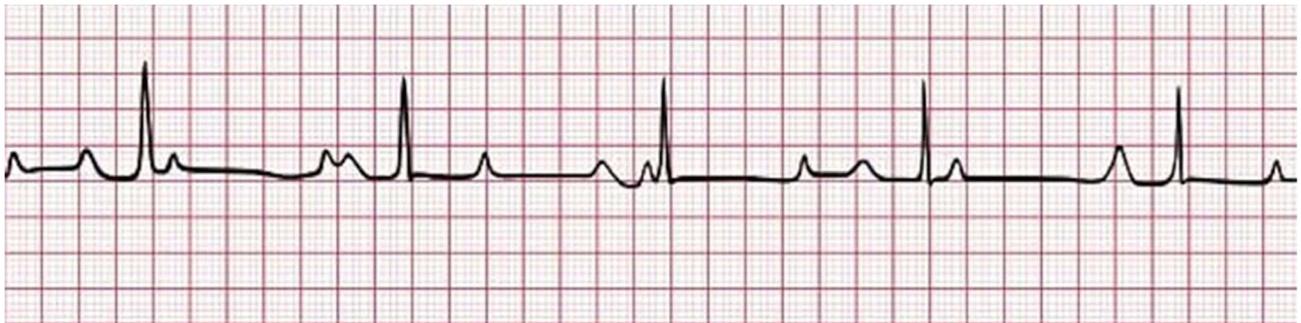

What nursing actions will you take CPR and code meds
do not shock

Identify this rhythm 3rd degree block

Calculate the heart rate _____

What nursing actions will you take pace the heart w/ life pac

Identify this rhythm Artifact

Calculate the heart rate _____

What nursing actions will you take make sure pt is not moving, check/replace leads,
move electronic devices away from pt, assess
pt
