

4. What interventions/nursing responsibilities could be delegated?

Nursing Tasks/Interventions	Appropriate Delegation to Whom?	Rationale for Delegation
Vitals Peri Care Blood Sugars	CNA	

5. To provide compassionate holistic care for this patient, answer the following questions.

What is the patient likely experiencing/feeling right now in this situation?	Maybe a little bad/hopeless
What can you do to engage yourself with this patient's experience, and show that they matter to you as a person?	Help the patient get up and try to get him back to doing ADLs

6. Identify the psychosocial/holistic care priority specifically for your patient based on the findings you noticed as most important. List appropriate interventions, rationale, and expected outcomes.

Psychosocial/Holistic Care Priority	Priority Intervention(s)	Rationale	Expected Outcome

EDUCATION PRIORITIES/DISCHARGE PLANNING

7. Identify three priority educational topics that need to be included in a teaching plan to prevent complications and prepare this patient for discharge.

Teaching About Illness Care	Rationale	How are you going to teach?
1. Spirometry	1. Pt. has trouble breathing	1. Walk him through how to do it teach back
2. Avoid strenuous activities	2. Pt. had an MI	2. Give examples about what is or is not okay let pt. ask questions
3. Take all doses of med.	3. Sepsis Do not want infection to occur	3. to pt explain dosing/schedule/route Provide pt. a # to call if he has any questions later
