

Student Name: Nicholas Castilleja

Date: 04/9/2024

Instructional Module 6
Obstetrics Community Clinical Experience

Community Site: Dr. Zavala

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I had the opportunity to observe Dr. Zavala's interactions with each of her OB patients. She let me see a Pap smear, Sonogram, and cervical exams.

2. What was the best/most interesting part of the experience?

The best part was her patient teaching. She was very thorough, honest and established rapport with all her patients. She also taught me in the rooms and explained in depth reasons behind her patient evaluations.

3. Is a community nursing position something that you would consider working in? Why or why not?

I would consider it because I want to help the pediatric population in any capacity that I can. Yes, it's different from the hospital in many ways, but I feel like the opportunity to provide care and support remains the same. A lot of patients found reassurance in the small amount of time they spent there.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, Dr. Zavala and her team truly demonstrate that they are willing to help in any way they can. She even sent several patients home with brochures and was very flexible in scheduling and adjusting according to patient needs.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes, education on diet, exercise, massage therapy, financial support, risks of not adhering to regimen, and ~~side~~ effects pregnancy has on the body. Yes, I do feel like it went above and beyond because she was able to explain it in ways the patient would understand, and kept it on topic and straight to the point.

Adopted: October 2016
