

POST-CLINICAL REFLECTION OB Simulation Reflection - due on Thursday by 1600

To strengthen your clinical judgment skills, reflect on your knowledge and the decisions made caring for this patient by answering the reflection questions below.

Reflection Question	Nurse Reflection
What feelings did you experience in clinical? Why?	Panic because when I walked in, the patient was unresponsive and I freaked out a little bit.
What did you already know and do well as you provided patient care?	I already knew that my patient had some mg going so I knew i would need to assess for mg toxicity and maybe watch for pp hemorrhage.
What areas do you need to develop/improve?	My reacting in a crisis situation needs to happen quicker.
What did you learn today?	That I need more practice in crisis situations. I also need to practice some med admin
How will you apply what was learned to improve patient care?	When walking into a crisis situation will result in me thinking about ABC and not to latch onto one aspect of care.
