

Kristen Gustafson

Community Site: Lamothe

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I observed a new OB patient appointment. I gave a Gardasil injection.

2. What was the best/most interesting part of the experience?

Being involved in a new moms exciting first appointment

3. Is a community nursing position something that you would consider working in? Why or why not?

Yes. I love the atmosphere. It interests me.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes I do. They care about their clients and the nurse staff was so supportive and shared the love they have for their dr. Their clients are important to them and they make sure they all know it.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes, A mom was taught on which medications that are safe for her pregnancy. She was also taught on how to take her prenatal vitamins in a way that would help alleviate her diarrhea. General teachings about the practice and the way they run and the way their communication will go with their patient and what to expect over the next 9 months. It was very informative and well-rounded to the subject.
